

# CHARLIE MARTINEZ

## IT Project Manager | Team & Cloud Environment Management | Digital Transformation

cmartinez@quirinux.org | programadorcondiscalculia.com/portfolio | Santiago de Compostela, Galicia, Spain

### EXECUTIVE PROFILE

Professional with over 20 years of experience leading complex technology projects, multidisciplinary teams and digital transformation initiatives in highly autonomous environments. Founder and director of Quirinux GNU/Linux, an internationally recognised project listed on Distrowatch, the Debian Derivatives Census and Wikipedia, managed end-to-end: technical planning, team coordination, systems architecture, cloud deployment, security and community communications.

Accustomed to making independent decisions, managing uncertainty and coordinating multiple stakeholders — technical teams, end users, vendors and official bodies. Experienced in cloud environments (VPS, Linux production servers) and application and infrastructure modernisation. Results-driven, deadline-oriented and quality-focused.

### KEY COMPETENCIES

<b>Complex IT project management</b>	Technical and business team coordination	<b>Cloud environments: VPS, Linux, web services</b>
<b>Risk and uncertainty management</b>	Technical and stakeholder communication	<b>Production server administration</b>
<b>Technical planning and roadmapping</b>	Knowledge management and documentation	<b>Security, backups and service continuity</b>

### PROFESSIONAL EXPERIENCE

**Quirinux GNU/Linux** | 2019 - Present

#### Project Director / Founder - International Technology Project

End-to-end management of an open source GNU/Linux distribution project with official recognition on Distrowatch, the Debian Derivatives Census and Wikipedia. All project dimensions managed: technical, human, communicative and strategic.

- Technical planning and coordination of a distributed remote team of contributors.
- Autonomous decision-making on architecture, cloud infrastructure (Linux VPS), security and operational continuity.
- Liaison with user community, technical contributors and official bodies (OEPM, INPI, DNDA).
- Full software lifecycle management: planning, development, testing, deployment and maintenance.
- Linux production server administration (Apache, OwnCloud, Redmine, Jitsi, WordPress).
- Technical documentation, user manuals and community communications.
- SEO oversight, web performance, accessibility and digital marketing.

**Crealib (Own Server Project)** | 2022 - Present

#### Cloud Infrastructure & Operations Manager

Management of a self-hosted production server supporting the Quirinux ecosystem, with critical services requiring continuous availability.

- Linux infrastructure administration: deployment, monitoring, security and updates.
- Service management: OwnCloud, Redmine, Webmin, WordPress and official package repository.
- Comprehensive security management, backups and continuity planning.

**AVA Soluciones Tecnológicas** | 2021 - 2023

#### Web Design / UI/UX / SEO / Sysadmin

- Web project delivery for clients, managing timelines and expectations.

- SEO, performance and accessibility audits with reporting to management and clients.
- Internal training (SEO, WordPress, DIVI) and client technical support.
- Hosting and server administration: Plesk, Webmin, SSH, FTP, database and email migrations.

## **Dinahosting S.L.** | 2020

### **Linux Support Technician**

- Multichannel technical support (ticket, chat, phone) for clients using Linux, WordPress and Moodle.
- Incident management and database restoration.

## **Estudio Grabarte - Audiovisual Solutions** | 2003 - 2019

### **General Director (Self-employed)**

- Full management of sole-trader business: planning, operations, clients and administration.
- Multimedia production, web design and specialist audiovisual training.

## **NOTABLE PROJECTS**

---

### **Tahoma2D (Open Source)** | 2022 - Present

#### **Contributor - UX & Linux Packaging**

- Accepted GitHub contributions: UX design (Stopmotion tab), Motion Path tool improvements and creation of the official .deb package script.

### **Asociacion Jovenes Emigrantes Retornados en Galicia** | 2021 - 2025

#### **Volunteer - Web Development & Linux Sysadmin**

- Accessibility, SEO, security and mobile responsiveness improvements for the institutional website.

## **EDUCATION & CERTIFICATIONS**

---

### **Technical education**

- Higher Technician in Web Application Development - IES San Clemente (Galicia, Spain)
- Linux System Administration LPIC1 & LPIC2 - Centro de Novas Tecnoloxias de Galicia, 2026
- Advanced Professional Linux - Activa Formacion SLU (Recovery and Resilience Plan, 2022)
- IT Cybersecurity - Campus Empleabilidade, Xunta de Galicia, 2023
- JIRA Software - Digital Experience School Madrid, 2022
- Web Analytics and Digital Marketing Plan - Federacion Galega de Comercio / Xunta de Galicia, 2023
- E-commerce Specialist - Femxa / CEC (Spanish Commerce Confederation), 2023
- SEO/SEM - Criteria, Barcelona, 2022
- Programmable Automata - Educatip / Ministry of Labour, Spain, 2024
